

GIT Assignment 3

1. What is git stockpile, and how does it work? How do you use it?
 2. Describe the various branching strategies.
 3. How do you remove data from Git without being removed from your system?
 4. In Git, what does 'index' or 'hosting location' mean?
 5. What is the difference between 'git remote' and 'git duplicate'?
 6. What is Git Remote's purpose?
 7. How can I clear up a git reflog?
 8. How can you distinguish between the git pull and git bring commands?
- 
- The logo for 'ineuron' is a large, light blue watermark in the background. It features the word 'ineuron' in a sans-serif font, with a stylized yellow and blue circular graphic to the right of the 'n'.
